SECOND ANNOUNCEMENT

Congress website: <https://dise.org.pl/en/inter-jura-2024/>

NUCLEAR INTER JURA 2024

The next International Nuclear Law Association (INLA) Congress will take place in Warsaw, Poland from **Sunday 03rd to Thursday 07th November 2024** at **Hotel Crowne Plaza Warsaw – The HUB**. The event will be held under the theme: **“Nuclear New Build Renaissance: In Search of New Approaches to Legal Challenges and Regulatory Effectiveness”**.

The 2024 Nuclear Inter Jura Congress will be organized jointly and in cooperation with the **Lower Silesian Institute for Energy Studies (DISE Energy)**.

This will be the 25th Congress in a series of INLA conferences that have become the leading international event that brings together representatives of government, regulatory authorities, nuclear specialists, legal professionals, academics and others involved in nuclear law. The purpose of the Congress is to promote the study of legal issues associated with the peaceful uses of nuclear energy and to encourage the exchange of information in this field. The Congress will be a great opportunity to exchange knowledge and ideas on the performance of those functions at all stages of the nuclear facility life cycle. During the event, we will explore new solutions to contemporary challenges and share experiences. It will also be an excellent opportunity to discuss legal and regulatory aspects as regards to new technologies, planned investments, suppliers, local contents, while highlighting the scope of INLA Working Groups' interests.

INLA / AIDN

The International Nuclear Law Association (Association Internationale du Droit Nucléaire) was founded in Brussels in late 1970 by a group of nuclear lawyers, with finalization of its Statutes and incorporation taking place in 1972. Its purpose is to promote the study of legal issues associated with the peaceful uses of nuclear energy and to encourage the exchange of information in this field. Every two years, it organises a Congress called "Nuclear Inter Jura" in which nuclear lawyers and specialists world wide participate. INLA membership counts some 500 members.

LOWER SILESIA INSTITUTE FOR ENERGY STUDIES (DISE)

The Lower Silesian Institute for Energy Studies (<https://dise.org.pl/en/>), based in Wrocław (Poland), is one of the most important Polish Think Tanks dealing with the issues of energy security, gas market liberalization, financial management of energy companies and the issues of efficiency of infrastructure projects in the energy sector. DISE is a Foundation joining a group of experienced experts: economic practitioners, managers from the energy and mining industries, as well as representatives of the world of science. The DISE team prepares analyses, opinions as well as economic, legal, geopolitical and technical expertise in the field of energy and fuel policy for the needs of the government administration, local government, non-governmental organizations and companies from the energy and mining industry. It also provides substantive support for Polish and EU parliamentarians. The Lower Silesian Institute for Energy Studies also conducts scientific, research and educational activities, organizing study visits to the most important facilities in the energy and mining industry in the world.
